Inhume - *Moulding The Deformed*

All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

Halloween Allstars cover of The Ghostbusters theme-would be cool if they had this in the new movie. Totally gonna buy some songs from this album on my Itunes, and get them on my iPad.

Stan Rogers- The Idiot.

Really under appreciated folk singer. One of the best things to come out of Canada in recent years, and gone far too soon!
