All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

Another band I need to listen to a lot more. So far I've only heard one song, that being Streetcleaner, and I loved it, getting to it in ~60 minutes.

Ghost - Con Clavi Con Dio

The only Ghost song that has some potential imo. Ruined by horrible vocals. The rest of Ghost songs are just terrible. Pop and doomy heavy metal, don't mix.

Ghost - Ritual

Actually same as Con Clavi Con Dio, potential but vocals are too pop-py
