Type O Negative - *Unsuccessfully Coping With The Natural Beauty Of Infidelity*

> **CVT Temp wrote:**
> I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

Debbie Harry was hot in her youth.

Anyway, after surfing through YouTube, I ended up listening to crappy modern autotune Indian music, so I'm starting over.

Queen - Nevermore

Queen - Seven Seas Of Rhye

The only single from Queen II. And it became a hit. Maybe if there were more singles, more hits would've been created...But it's best for this album to stay underrated.

Anberlin - *A Whisper and a Clamor*

I've always really liked this song since hearing it in the soundtrack of NHL 08. I just looked up Anberlin, turns out they're a "Christian Alternative Rock" band. I find that I enjoy the song much less now.
