Ok, mate.

A discussion about the fap-fodder ish marriage RP's evolved into a discussion about waifuism and shit.

Puppet of Northern Ateria speaking here, my fault for bringing up the marriage RPs that devolved into all of this.

And now onto our next cliché, because we need to get out of this on as quickly as possible.

I've been noticing a lot of Warhammer 40k based nations popping up recently, do you guys think this might be the next cliché?

It has been a cliché since because I try to be one in Create a Nation and it's just along the lines of 'Reserved', 'Disgraced' or just 'Naughty'.

But in my opinion they are fun to exercise a power fantasy to when every other user here is a FT nation with FTL technology and lasers.

The cliché is the Warhammer nations that put all of their effort into being needlessly overpowered instead of putting effort into actual lore

(why did it just duplicate my post? eh, whatever)

I have a nation whereby not loving is Heresy, and it is going to be a super exaggerated version of WH. But err.... ahh, I never got around to it, other than just the name, haha!

I got the name, then just dropped it because I am not brave enough to venture deeper into WH40k lore to represent it fairly while also making a satire out of it.

40k isn't even THAT overpowered anyway, they have lots of dudes and big guns but the Imperium is small fry compared to some of the crazier FT nations.

You know for the laughs. I would love to see a nation who's electrical grid is powered with nothing but pure, unfiltered racism wholesomeness of the internet. That'd be funny, I think.

But then this is coming from the guy that causes people to either laugh nervously or just yeet from discord.

Tyranids are great when you need to chow down on some OP FT nation with just sheer numbers and the stomach capacity of a college student.

Yeah. I've seen a few cases where someone points to an extremely similar past case to prove their point and the response is just. "No rules lawyering" It honestly feels like nothing more than an excuse.

Yeah. I've seen a few cases where someone points to an extremely similar past case to prove their point and the response is just. "No rules lawyering" It honestly feels like nothing more than an excuse.

Or cases when someone asks for if something is legal or not and instead is confronted with a response full of rules lawyering accusations and passive aggressiveness. I've seen this happen to me and other people.
