Vehicular traffic has reached up to levels so high that over-ground roads have been constructed, setting induced demand into action.

The Federal Reclamation Initiative of the United States of America

It's 2035, 62 years have passed since the world became a nuclear wasteland. The world became ruined through the efforts of Southern rebels in the United States. Who, after losing the 1972 Presidential Election to Senator Kennedy capture nuclear weapons and activate them. The hours after this see a nuclear exchange between the Soviets and the US over miscommunication. Luckily most of the Federal Government had managed to retreat to bunkers across the country. Decades later they have now returned to give America a second chance.
