Man drinks coffee but the coffee was actually rocket fuel. Man barfs it out, causing him to launch into the air and then go into lightspeed, which takes him to a giant black hole.

Man accidentally denies his own existence in the process, and is successful in doing so. He vanishes in a puff of irony.

Jeff gets angry because everybody calls *the bike* Jeff, but not him.

Godulan Puppet #2, RPing as technologically advanced tribal society founded by mongols and vikings (and later with multiple other Asian and Native American cultures) motivated by an intrinsic devotion to the spirit of competition. They'll walk softly, talk softly, and make soothing noises as they stab you in the back and take your stuff... unless you're another Caleshan, whereupon they'll only stab you in the back *figuratively*!

Used NS stats: Population. That's it. Anything else not stated in the factbooks is not used.
