They are a more publicly approved version of the USSR. They just more careful about their secret police force however.

That there looks like the little marks on a sand-dollar, which can probably be used to invoke rain. Therefore, they're not bad. Maybe.

(3+2i)/10 - that is a picture of a statue, not a flag

This it's is do be an signature. That's is nice. I'm am not do has enough to justify putting anything special in ye olde signature, so this will do are have to be sufficient.

5/10 -- Flag uses a couple of colors, but the "drabness" that lingers on them kinda makes me feel like there's something wrong behind the scenes!

I don't think I'm going to use NS stats...

0/10, pretty normal, for a monarchy anyway.

What happens when people are put through a history of suffering and insanity?
Probably totalitarian dictatorship, like the planet of Namisia.
We're literally the bad guys, we know. This nation and [Pycos](#) take place in the same universe.

And I hope I don't need to seriously say this, but OOC views are very different from IC politics.

Are you talking about the historical Iberian Union or the one from The New Order: Last Days of Europe (which this nation is based off from)?

7/10 I dunno man, I know it's pretty abstract something about the design seems a little sinister to me

A civilization with an over 3,000 year history of lizard people killing each other and enslaving everyone else. Now they've finally calmed down and formed a modern westernized constitutional monarchy. (long live Emperor Yoshio!)

Note: Any factbook entries over a year old are severely out of date and may be subject to extreme revision and retconning soon. If you have questions on anything about Ru, please feel free to ask.
