They have an extremely authoritarian government with no freedom of speech or thought. Also they don't like snow.

Apparently, they're one of the last bastions of democracy on Earth. That aside, it seems that the Russians went on a genocidal rampage to destroy non-russian culture in Europe after the Third World War.

That wasn't unique to the Russians though, that is a description of the other two as well.

Their empire is a stratocracy that forcibly assimilates every culture it comes across and their hive city is something like the Tower of Babel.

They're apparently set in the same universe as 1984 and are much more religiously tolerant than RL Arabia, with the exception of war worship.

**AN** They're from a universe called the Solarian Universe. Funny my nation had a rebellion called the Solarian Rebellion. I'm gonna go out on a limb and say that they're Hyperion's puppet.

Partially inspired by the Third Odyssey mod for EU4, this nation is essentially a Byzantine successor state in South America that has fused together Ancient Greek Religion with Greek Orthodox Christianity. It mixes the aesthetic of Byzantium and Ancient Greece, with very open and liberal social values but with an Imperial Monarchy. NS stats are referenced but are not strictly followed to a T.

The land they own, according to their map, looks frighteningly similar to the Nazi-German "Lebensraum" during and before WW2. Only this time, they own *even more* land. Luckily, their Kaiser is not a racist who would genocide everyone in a heartbeat.

Besides being Skyrim personified, their peoples are mostly pagan, with only 30% following a more streamlined "organized" version of their cultural diaspora.
