Not a crime. Also not relevant, as tertiary education is free in Tangatarehua - it's seen as rather immoral to make young people pay for their education with money they don't have.

Walking in the snow stark naked?

Walking in the snow stark naked?

Not an offence, except in a few relatively small parts of the country whose penalties for it differ but anyway aren't very severe.

Selling meat or a meat-containing dish (whose sale is legal) with a claim that it's a different & more expensive form of meat.

Deliberately damaging a building's electric circuit.

Willful Damage. The severity of the damage decides the punishment. The minimum being a week of holy service (basically community service along with some religious stuff) to the maximum being relocation to external colonies for mandatory work programmes and religious education.

What is the punishment in your nation for public indecency?

That depends A LOT on what indecency we're talking about.

If we're talking about running, walking, protesting (or whatever) naked in public, 1 month of detention in a semi-open regime and after serving the sentence, the record is erased for being something extremely silly. Dropping your pants and showing your ass, for any reason, is punishable by only 24 hours in jail, the person is not even registered and there is no criminal record to be made.

On the other hand, if the imbecile is masturbating or even having sex in public, the penalties can vary from 6 months to 2 years in prison in a closed regime. If combined with some other crime, such as sexual harassment (rubbing your parts or ejaculating on someone, for example) then the penalties can reach up to 10 years in a closed regime.

Electricity theft.

The parliament would be fucking pale at somehow finding a civilian with a missile launcher, if you were an official however, you'd be dunked from every level of the government structure of Lemsrow.

As for civilians, they might be heavily investigated by.

Managing to create deadly and infectious tardigrades (somehow) which accidentally leaks out of the lab and... 1/50th of the city is dead before you might've even known it.
