Don't know what in the hell happened in this page, but maybe I'll just continue the thread, I guess.

Man gradually recovers over the course of two years in the hospital, and after undergoing three successful surgeries.

Man tries to get his life together, starts binge watching self-improvement videos on youtube

Anything is possible, Entro i nostri limiti

In Italian it means

Anything is possible, within our limitations

Or at least i hope that's what it means since these days you can't trust google translate. For all I know I could be saying "Your mother was a hamster and your father smelt of elderberries!" PS: If you get that reference then you are very cultured.

All NS Stats are canon.

Oh, and I guess you can make up anything else about this nation, like geography and such, based on your own imagination. I don't really plan on writing lore on this nation, at least for now.

As it turns out, Man is wearing a jetpack.

The Terminator respawns where it started and separates into two robots.

Man flies around to random places and gets lost. However, he sees another jetpacker in the area, whose name is Celia, shooting down rogue drones with Ashotu labels on them. They decide to attack the source together, and descend into the cavern where Erin's team is. Celia fires off an ether shot at the Terminators, and they instantly explode. Erin and co. don't see this, however.
