Actually, I dont have a country. Being Kurd is really hard..

Iraq or Turkey?

There is no divine feminine.

My nations policies are not economic, but a deliberate attempt to kill of the spirits and the sacred forests of the Pagan rebels.

My nation does NOT represent my RL views.

A nation that has a fair shakeup of political parties that doesn't immediately spill the player's own political views? How enticing! It

took me a good read and a solid minute before I even had a guess. (Although tbf the nation itself seems to lead more towards the left-wing the nation has rational right-wing parties and has radicals on both sides. It's very refreshing to see.)

Now the real trick was google searching your nation's flag since on a pc you can google search images by dragging them over. It revealed a Japanese commercial that someone from outside of Japan wouldn't likely know, or have seen. Therefore, I place you as... Japanese! Final Answer!
