Rorschach Test - *Elvis (Dis-Graceland Mix)*

**CVT Temp wrote:**

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

That Sigur Ros song is pretty different from the rest. I think it's the only time Jonsi (the singer) sings in that way. Of course, as a few people in here know already, I'm willing to share more Sigur Ros if you want.

Not really listening to anything noteworthy.

You like that song?

Queen- Good Company

Of course! Been hard trying to learn it on guitar. On piano I can do it just fine.

Can't Get Enough - Bad Company
