That despite being a cyberpunk corporatocracy, wealth is still pretty evenly distributed, and there is still some democracy. Its a more positive portrayal of cyberpunk.

Alicia wants to implement a 60 hour work week, which actually is pretty modern. I mean, the concept of having maximum working hours.

(Though, you could say that the medieval equivalent would be the various holidays the peasantry had.)

Apparently the PRC has had the world's largest economy almost continuously for over 100 years, since the 1970's, and, despite the fact that it also has the world's largest wealth disparities, it also dominates less developed national economies such as Indonesia.

The Lordship is a final holdout of the Byzantine Greeks (Rhomaioi) following the 4th Crusade, which resulted in the sacking of Constantinople and ousting of the Byzantines from the region - replaced by the Latin Kingdom. Further, the state integrates the native Isaurians, an Indo-European peoples whose language became extinct in OTL's 5th Century CE. The state is more or less biding its time until the Turkish invasions of Anatolia.

SKS is very lax in terms of dresswear etiquette, with nudity public being socially accepted and, in some circles, even enforced. Beachwear is also quite common, and is even accepted in otherwise professional settings, such as company meetings. Even during winter, nudity and avoidance of full clothing is predominant.

Alaska never came under US control because there's an active Russian colonization effort there and after the Civil War; the Whites moved there and it proclaimed itself as a Tsardom under Tsar Kirill. You know what, this reminded me of AltHistoryHub's video on Russian Alaska.

1. Yuralria has a very high (per capita) Jewish population. 2.2% is about

similar to the percentage found in the US, which is high by most standards. I am interested to see why that is, if there is a reason, as it could imply Jewish refugees from some Monarchist persecution, or perhaps even Stalin-Era oppression, with the latter being something that would be interesting to read about due to the geopolitical implications. Buuut, no more rambling.

2. North Slope Borough has been renamed to Yukon, not to be confused with the Canadian Province of Yukon which they (most likely) have no claims on.

AN: Ah, if it isn't Mr. Grand Piano. Good to see you again.

Anyways. Wochaystein was once a province within the 'Holy Empire', a massive empire which, if my math is correct, would have been about the same size as the Achaemenid Empire during its height. However, as is often the case with these massive empires, the nation collapsed in a 107-year long period, presumably with a lot of death and pain involved. Now, Wochaystein has been reduced to a small rump state, not even fully controlling the island it rests upon.

The village of Sarjent has less than five hundred inhabitants, a three-ish mile gap between two major population centers, and a largely Jewish population.

I'm trying to figure why this merits a dedicated factbook.

The general cultural quirks, along with established framework to create a sort of band (not really band because we're talking about groups of millions of people) of tribes centered on logic and productivity, including but not limited to the Caleshan Demopol, the extent of stoicism a Caleshan can have, etc. shows us how devoted the Caleshan are in ensuring a) efficiency, b) that emotion may not impede on judgement.
