Rehabilitation if found for reasons not associated with economic status; if it was committed due to economic status, they would get both rehab, basic necessities, and would be helped by the state to overall get on the same level as other workers; if committed harm to someone else, then punishment will be determined based on what the victim believes should happen to the perpetrator, along with what the judge/jury finds reasonable

Snowland, officially the Snowish Republic, is a country located in two entire planets. Snowland is a socialist state, with multiple political parties, but all being a different type of socialism. Snowland contains both humans and furies.

If you have any suggestions for what I could add to my factbooks, you can DM me what the suggestion is, and I'll see if I'll use it or not. No fascist nations allowed, not even if you don't believe in your nation's ideals.

That's a death threat, which is not the responsibility of the state. The government recommends that the receiving party ignore the offense, or schedule a duel in our colosseum.

You've just been extradited back to YN for stealing high-value artwork abroad.

The Athenian Sea League is set in a low fantasy world where all the legends and myths from greek mythology are true. And in it's current form the Sea League is a collection of city-states, oligarchies and petty kingdoms led by a triumvirate of it's three most prominent member states: mighty Athens led and represented by it's Archon Eponymos Pericles, "Father of democracy", brave Macedon led by Perdiccas III "the Wise" and represented by a court official by the name Pausanias and fearless Crete which in itself is a union of Cretes two most powerful nations, Pefki and Messara which each having to share one representative, said representative being Podarkes.
