Zravvisk is the name of our species, but other people commonly call us "Space

Don't meddle in the affairs of dragons for you are crunchy and tolerable with condiments.  
A day in the Armada isn't too different from a Star Trek episode if almost everyone in the Federation was a dragon and spiritual.

## Pazuzuism

This place is not a place of honor... no highly esteemed deed is commemorated here... nothing valued is here. What is here was dangerous and repulsive to us. The danger is in a particular location... it increases towards a center... the center of danger is here... of a particular size and shape, and below us. The danger is still present, in your time, as it was in ours. The danger is to the body, and it can kill. The form of the danger is an emanation of energy. The danger is unleashed only if you substantially disturb this place physically. This place is best shunned and left uninhabited.
