Sólstafir-Æra

Edit: Holy crap my post-rock/post-metal playlist has 714 songs in it, and that is from me mostly only putting 4 songs from each album onto the playlist.

I'm just going with calling Solstafir post-metal because it says "Post-rock and Experimental Metal". Which I consider post-metal to just be metal with post-rock elements to it.

That's one epic song

Used to be a straight-edge orthodox communist, now I'm *de facto* a state-capitalist who dislikes migration and hopes automation will bring socialism under proper conditions.

Insomnius Dei - *For The Memories Of My Past*

“ CVT Temp wrote:
I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.
