Decoded Feedback - *Breathe (In Strict Confidence Remix)*

**CVT Temp wrote:**

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

Not really. I haven't listened to them in a long time. And I've only

posted like, maybe 4 songs of the 12 on the album I'm just casually listening to. That's nothing compared to what I do when I'm going through bands I haven't listened to before ☐

Anarchy Gumbo podcast, episode 4 with Scott Horton of antiwar radio

“ The Empire of Pretantia [wrote](#):

[...] TLDR; welcome to the internet. Bicker or GTFO.

"Why is self-control, autonomy, such a threat to authority? Because the person who controls himself, who is his own master, has no need for an authority to be his master. This, then, renders authority unemployed. What is he to do if he cannot control others? To be sure, he could mind his own business. But that is a fatuous answer, for those who are satisfied to mind their own business do not aspire to become authorities." ~ Thomas Szasz
