3/10 might have seen them somewhere, but not very often.

Imagine America, but an asteroid crashed into them in the late 1800s causing the planet to be blanketed in magic. Combines magic and modern tech into one conservative, hyper-capitalist society.

Based on post count, somewhat well known.

Hello there. I'm **Simonia**.

Our nation has twenty-one provinces, four regions, and four capitals. And before you ask, Pink Castle City is called that for its pink castle, Pink Castle City's main building.

A land where humanity is king, above god and devil alike. A blissful Utopia for

Humanity, a horrible Dystopia for sentient robots.

Robots shouldn't have rights or citizenship;
Compromise on other non-human sapient entities is possible, with limitations, but not on these buckets of bolts. They should serve humanity and have absolutely no place in society other than as our servants. Think of the benefits of this. Plus, they would almost certainly overtake humanity if we gave them the chance, whether out of pure advanced abilities or malice, or worse, both. Think of humanity.

I have seen this nation a few times, but I assume this nation is gaining popularity mostly in f7, this nation has not been seen in nsg.
