"By all means, Pickett, keep talking, keep that garbage flowing out of your mouth. You're doing a great job of making enemies, *mon ami*. But as of right now, I think it would be entertaining to tell our Head of Security that you just made a death threat to the great and mighty signer of paychecks, and watch her snipe your eyeballs out with a high wattage laser rifle. I have even less patience for nationalist, racist demagogues like yourself than I do for more mundane 'oh my precious authority' types. You're a joke, Pickett, and not a funny one, *mein Freund*. The funny only comes in when someone like myself proves that the government is completely powerless to stop 'bad actors'.

Oh, and what's this nonsense about being a god? Now you're just stealing ideas from my good friend Alice Martinez. Except she has far more right to call herself a god than you do. You don't just become a god, you're born one. When

all of this is over, *min venn*, I might let her borrow my amazing lawyer to sue your ass for defamation, in demonic court, unless you admit that you are not a god, none of your people are gods, and my friend, Alice Martinez, is. I know it pisses you off, the very idea is antithetical to the steaming pile of *φεκαλιου* you call a brain. Which do you prefer? Being killed by a black woman? Being sued publicly in a non-human court filled with people who do not resemble any human race, let alone European, and almost certainly losing because their justice system functions nothing remotely similar to human ones? Or admitting that a Latina is a god, and you aren't? You're going to have to pick one, lady-stache. Morton's fork, you lose."

"Ugh, it looks like someone hasn't read the memo on how my 'godhood' works. You can't just shoot me in the head. No matter how many times you do it, I'd just keep on coming back. You're banging your head against the wall."

Look, the Hermitage maybe a national attraction that gets many tourists visiting it yearly, but most of the area outside the tourist zone is a death trap. Firstly, Mount Jefferson's geography is dangerous, with mudslides and other hazards. Then, add to that various traps of my own design. Seriously, I took inspiration from video game levels. Furthermore, I have my personal army of robots guarding the place. Worst of all, the parts of the Hermitage that contain my brain aren't even accessible to normal humans. I purposely made the passageways too small for humans to enter. All maintenance is done by my robots.

Demonic courts have no jurisdiction in RCAS territory, and it would require an all out demonic invasion to force the RCAS to comply. I doubt your little gang can defeat a global superpower with an army of over 260 million personnel and over 1 billion robots. Airspace is also occupied by one of the world's largest and most advanced airforces. Mind you that ALL 260 million personnel are 'gods' like me, except with smaller bunkers to contain their brains. They're also all armed to the teeth. I also have been killed many times, and I have combat experience stretching back to the 2070s. Like you might've had a chance back then, but now..You really have no chance.

Also, funnily enough, I dealt with a demonic incursion before. Voodoo demons to be specific. I destroyed them by my lonesome- Er, well, Val helped me out. But, we did it ourselves. Guess why? To save taxpayer money because taxpayers shouldn't foot the bill for my mistakes. Especially not after the Bush War."

sowing lies; and his arrogance knows no bounds, as his comments were to illustrate. One would think that by this point such a despicable creature would be past trying to pretend they care about good or evil, but here we see him gleefully scrapping to establish a moral high ground over the Pickett fellow on the basis of some kind of anti-racist sentiment - as if 'not being racist' can in any way grant him clemency for his many actual sins. And in the same breath, Doe spits out strings of giddy sadism at imagining his opponent being judged not for the sake of justice or even atonement, but for the pleasure and Schadenfreude of the judge, proving that he has well and truly sold his soul and become a demon. I'd spit on both of them, but I'd gladly pick Pickett over the lie-in-a-suit that stands before me."

Instead, he meditated inside his dojo in Bariloche and burned incense. With the smoke filling up the entire room as Le Patron's portrait hangs above him. In Puerto Soleil thousands miles away from Bariloche, Le Patron would commit his greatest crime...
