Using color and background fields along with asterisks to mimic a mod warning instead of using the warn tag is still impersonation. This is a huge no, and can be subject to immediate deletion of your nation.

As you do not appear to have been directly trying to maliciously impersonate, I'm willing to be fairly lenient, but under no

circumstance should you expect to get away with doing this again.

EDIT -

Upon review, I'm reducing this to be just an unofficial warning. The red-text in question is quoted from one of the "above nation's" factbooks, in accordance with this thread game's intent. It is not a good choice of content to quote on the forum, but clearly was not done with malicious intent.
