At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

I don't really know what my favorite movie song is. I don't listen to as many movie soundtracks as video game soundtracks....mostly because video game soundtracks from what I have observed are typically cooler and more original while movie soundtracks bore me a lot. Same deal with stories. Storytelling is getting better in video games then movies in my opinion. At least mainstream movies.

[Half Life 2: Episode 1 Soundtrack-Combine Advisory](#)

I have the same opinion but that one song from Inception is an exception.
