Time dilation prison time and possible simulated death penalty all in cyberspace plus reparations to victim's family. If a really important official then the previous plus potential real life torture and death penalty regardless of what the WA says.

A land where humanity is king, above god and devil alike. A blissful Utopia for Humanity, a horrible Dystopia for sentient robots.

Robots shouldn't have rights or citizenship;
Compromise on other non-human sapient entities is possible, with limitations, but not on these buckets of bolts. They should serve humanity and have absolutely no place in society other than as our servants. Think of the benefits of this. Plus, they would almost certainly overtake humanity if we gave them the chance, whether out of pure advanced abilities or malice, or worse, both. Think of humanity.

expect a life imprisonment where someone might earn parole after 10 years. If the war crime is very severe, around Imperial Japan Levels, then there is no chance of parole at all.
