This site stresses me out, so I rarely come on here anymore. I'll try to be civil and respectful towards those I'm debating on here. If you don't extend the same courtesy then I'll probably just ignore you.

Going through some of these Post-Rock bands are easy because I click on them and am like "Why did I save this? This is pretty generic, boring post-rock", and then delete it. There's some more generic post-rock I like because there's at least something more interesting about it but some just really bore me. And even the ones I like I probably wouldn't put on high priority to ever buy an album for.

Some might be okay to go through at some point but I have so many other bands that it is put on low priority...

Seriously, I'm cleaning a ton out this way.

Honestly, I cleared out a ton of bands I'll probably never end up getting around to going through, in all sorts of music realms. Feels kind of nice to easily clear out things to focus on the more important stuff.

### [Toundra-Ara Caeli](#)

Cool album cover.

Now I'm listening to some more metal. This band is post-rock, post-metal, and there seems to be a bit of sludginess, too.
