Christmas Mafia back in Control of Media and Markets

What this thing is:

A nation obsessed with technology and progress populated by various types of mad and villainous scientists. They're not evil, of course, it's just the aesthetics of it. Well, some of them aren't scientists either - those less academically talented generally find their calling assisting their master employer with their scientific endeavours (hump or other physical deformity not mandatory).

The faces of this thing:

For someone who thinks they can destroy a country with a military budget in the trillions, and have them be 3 and a half times larger, I find it odd they can't spell "destroyed" correctly - the very thing they will unsuccessfully do.

No, ENZONAR, I will destroy you.

This nation does not **entirely** express my views. But my sig does!

Pro: Capitalism, free market, Republicans, LGBTQ+ rights, religious rights, Separation of Church & State even though I'm Christian.

Against: Too much government regulations, homophobes, islamophobes, the type of liberals I have in my mind, people on all the extreme parts of the political compass, people that assume all Christians are homophobic and transphobic
