The invincible man, while eating Arby's, opens up his computer using Arby's internet. He finds out about the furry fandom, and joins it. After getting a comment directed to him on a strange site called Nation States that hurt his feelings he is no longer invincible

Man represents himself in the trial and wins, psychologically and emotionally damaging the brains of everyone who saw the trial. The case gets taken to the Supreme Court, where the entire Supreme Court resigns instead of making a judgement.

TERRAN AMERICAN STATE UNDER THE ALL SEEING EYE

The shining city upon a hill built on the blood and toil of millions of innocents at profit's hand!

An alternate history where an oligarchic hegemon led by two ideologically similar and increasingly geriatric parties try desperately to keep the flame of American dominance over Earth at any cost.

The Invincible Man once again avoids prison by betting with the police that he would be able to guess the hiding place of the most wanted criminal in that country and ending up BEING RIGHT about the criminal's location.

The Invincible Man goes to Bosnia and commits war crimes, AGAIN.
