Sounds like you need to expand your music horizons, maan. And there's some pretty big generalizations about American music in your post, too.

Also, this is a "What are you listening to RIGHT NOW" thread, not a "What do you listen to?" thread, just for your information.

And I know Kamelot quite well because they are my sisters favorite band.

You poor, poor soul. I wouldn't wish power metal upon my worst enemy. (even though I have a soft spot for Pagan's Mind and Outworld and Wintersun and stuff)

Nightwish suck imo and are not true metal at all. American metal is too damn varied to generalize.

I actually don't mind some of Kamelot. And in general they bother me less then what I could hear someone listening to. But overall they just kinda bore me. There's actually a couple of Kamelot songs I could say I actually like, to an extent.

You'd probably like CTS. [Oblivion](#) would probably be a good place to start on it, too. Well, it is the start of the album anyway, but it's a good track to get an idea of it. Not as long and epic as The Czar of The Last Baron, but still a dynamic track.

Mastodon - Oblivion

Oblivion is the only Mastodon song I really know well on the top of my head, and I like that one. I've heard various others from you posting them to me, but that's about it. I don't remember any of them very well. It seems to really take a few listens for music to become truly engrained into my head for me to remember it. I can

listen to a whole album of music and barely remember anything off of what I just listened to. I do that more then I would like. It can be really annoying. I'm guessing it relates to my crappy memory.
