The culture of the Servants of the Will places great value on children. They are raised communally rather than by their immediate family in order to have a wide variety of experiences throughout their development, and biological parentage is seen as a trivial distinction. One particular group devoted to the raising of children is known as the Sentinels - a militant, all-female order that defends Servant children with vicious zeal.

The leader of Empyrius is the Archon, who is elected for life by the Directorate (an oligarchical body appointed by the Archon). The Archon also serves as the high priest of the three patron gods, Sshear'khaal, Qrythua, and Saar'qathryl.

It is a Jewish ethnostate located in Europe, around modern-day Eastern Germany and Western Poland. It is populated mostly by Ashkenazim Jews, but there exists minorities of Sephardi and Mizrahi. It has a high standard of living and is considered highly developed, with an HDI above .930. Despite this, it's economic growth has stagnated.

I should really rewrite that, I've had other responses who misunderstood it as well so it might be a problem on my part. The Oligarchy is a separate group, much smaller than the Directorate, whose members are hand-picked by the

Archon out of the Directorate to serve as a personal council. The way government officials are promoted to the Directorate isn't mentioned yet, and I suppose elaborating on that would help clarify the distinction.

It is an island country south of Japan and east of Taiwan and the Philippines. People in China described it as a country known for trading ports. The country was colonized by Spain in 1586, sold to Great Britain in 1852, and was briefly occupied by Imperial Japan in WWII. It gained independence from the UK in 1968, but there was a civil war that lasted several years. Afterwards, the economy has grown thanks to shipping ports and the discovery of oil reserves.

The entity known as "DJ Doug Douglass" is actually one of four known manifestations of an outer god of incomprehensible nature. In this form, it vaguely resembles a pastel-coloured, many-eyed, skeletal humanoid of variable height. It relies on its numerous avatars to communicate with mortals, since they would either go insane or die if it revealed its true self.

The origin of the main demographic within the polity of Empyrius were originally humans that became imbued with the capabilities of accessing the preternatural phenomena of magic - and, beforehand, religious innovations spearheading basic access to these later evolved forms.

The Eternal Crusade is based on a mostly luddite, anti-technology philosophy, but that doesn't make them avoid using weaponry where it is useful.

The *Representats Regnal* within the parliament of Cantelo exists as a legislative extension of the will of the ruling monarch, although not having the innate capacity to outright dictate law due to its structural existence as a political party versus a true monarchic organ.
