5/10, the syndicalist styles flag adds a bit to the "Scariness" factor. But not much

mostly not-evil but during an "edgy-atheist phase" of life it would appear more evil

3/10, looks a bit like a war flag, but that's the only thing intimidating about it

Eh, put it at a 5/10.

I use my NationStates stats, because a population of billions/trillions and an economy of hundreds of trillions is totally viable, trust me.  
But seriously, aside from the population and GDP, just assume that my NS stats are roughly accurate.

6/10 makes it look like the AN is religious enough to start a war over deities.

Doing Rosmana bc doubleposting:  
5/10. The color palette makes it a bit hard to discern the pattern, but if you changed it to something more ominous the flag would definitely look scary.

A venerable empire, fallen from grace.  
New Allies, some older, some younger.
