Ah piss when I went to find your nation it legit says on your forum profile: Nation, California.

I feel like I'm not doing you justice however if I don't look into your factbooks and try and find the hints that would lead someone to that kind of a conclusion, so here we go!

*Social Democracy*, and *left-leaning college state* are both giveaways to a leftist point of view. The 3 branches of government are very similar to the American side of things. Also something I've noticed on a lot of left-leaning nations when they list parties they list a few left-wing parties of various alignments, and then proceed to have one or two right-wing parties that sound like they could be the villains of a 1980's bgrade action movie. I don't mean to diss you like this but I think you see where I'm heading with this. I know I pretty much look at a nation and go "It's left-wing so Califorina" but there's a specific kind of left-wing attitude that comes from California and you've got it. So yeah, California probably would have been my guess without the forum profile spoiling it for me. Have a good rest of your day!
