Yep. If it wasn't a sabotage, it means I would disappear from NationStates in 5 days. Hope you read the factbook that contains information about that.

La Ferra Suprema Reigns Supreme over the vast lands of Stella Nera  
A land where humanity is king, above god and devil alike. A blissful Utopia for Humanity, a horrible Dystopia for sentient robots.

Robots shouldn't have rights or citizenship;  
Compromise on other non-human sapient entities is possible, with limitations, but not on these buckets of bolts. They should serve humanity and have absolutely no place in society other than as our servants. Think of the benefits of this. Plus, they would almost certainly overtake humanity if we gave them the chance, whether out of pure advanced abilities or malice, or worse, both. Think of humanity.

Humanity First!

French PM Joséphine Agreste asked for permission to resign after opposition in French Parliament over recently-passed law that raised retirement age to 60.

About time the Gerontocracy of old got replaced by the NationStatesocracy of new. Also, permission to resign? They need permissions for that?
