So, I assume their priority is roughly multiplying.

They are fiercely socialist and russia-based. And to that, I congratulate you, comrade.

***Infinetist Superstate of Exsorcial***

A dystopian superstate under the omnicidal state ideology of Infitinism. Beliefs include the extermination of all other human life sans the Party. Ruled by the deranged Infinite Father, this military giant is established as the direct antithesis to freedom, with crimes ranging from the sponsorship of international terrorism to granting amnesty to any international criminal who destabilizes an enemy regime. Infitinism claims democracy and morals are hypocrisy. The solution: reducing its populace to sadistic, cynical, murderous, and sociopathic pawns of the government by means of opportunism and ferocious propaganda in the name of returning to "true humanity", which was essentially slaughter and oppression.

PMT/Early FT - Decopunk. Zitravgrad is a crowned republic in a planet somewhere else in the universe. The formerly wartorn nation keeps a facade of normalcy and order while enjoying the societal and cultural decadence that marks the new Roaring Twenties. The paranoid authoritarian government tries its best to uphold order in the face of uncertainty, while its people want nothing more than a breathing space.
