Man-1001, the first human-machine hybrid, goes even further back in time to save Baby Man from being killed.

He was a dark and stormy knight, and this excited Gwendolyn, but admittedly not as much as last night when he was Antonio Banderas in drag, or the night before that when he was a French Legionnaire who blindfolded her and fed her pommes frites from his kepi.

Man dissolves into ashes and a pair of eyes in a cartoonish fashion. His entire body fully recovers once the next scene comes along.

Man's shotgun gets jammed In a fight and he is captured by demons and tortured. He loses his arms and legs and goes unconscious. He wakes up in a small town in Oregon named Gravity Falls with his arms and legs replaced with robotic parts.
