Despite the fact they sound like a Jewish America, they actually started out as a Hereditary Empire after they were exiled to the lands they own now.

So, you kind of exist in MN's universe, but kind of don't. What we have is an Arab league consisting of Iraq, Yemen, Oman, Saudi Arabia, and the Trucial States. But in 1963, it was agreed that Arabia and Iran would trade Kurdistan and Khuzestan, but Iran would get half the profits of Khuzestani oil sales.

Though the United Socialist Party and it's Hedmark Society ally hold over more than half of the 950-seat People's Council -their equivalent of a legislative body- it's rivaled by the opposition Revolutionary Nationalist Party. It's described as a Conservative party.

Honestly, their factbooks need *a lot* of work. Their world seems to be divided between a Catholic USA and a Technocrat USSR with weirdly explained lore that's just all over the place.

Not meant to be an insult or anything, but please work on your factbooks.

They are located in real-world Japan, surrounded by it on 3 sides, with the 4th side being the pacific coast. They are governed by the Republican United Front, with the Christian Democracy League holding the second-largest number of seats in the legislature. However, the Agrarian Work Party and the Green Party are seeing a rise in popularity.

The Bar is a chill TV program that we wish to import to our TV stations. From the episodes we've seen, notably "We Get a Pet Chicken", are genuinely funny, unlike the other sitcom series that have been airing for the past 40 years.
