"Supreme Ruler of...All Reality? What? You're not like *Her*, are you? You're not some distorted insane version of me, are you!? Pretended to be a deity...wait, you *didn't* slaughter your own side? Maybe my expectations were too low after all. I'm going to be blunt. You are like me, when I first declared myself Supreme Overlay of All Reality- except if it actually become absolutely true. Experiments and torment and messing around with worthless test subjects...I used to do that. I moved on. I found a greater purpose than just ruling and killing for the sake of ruling and killing- don't listen to those democratic idiots, it's true. I want to judge you. I want to say what you do is abhorrent. But then, can I? When I would have done the same if I could have, with such incredible power? What would anyone do with that amount of power, except enjoy themselves however the heck they wanted? I can't say I have a particular fondness for you, but at the same time...I almost, *almost* understand. I would be just like you, in another world. Even our basic ideologies aren't really all that different- I just limit myself more. Don't start, I know, I've heard the

whole spiel about unlimited power and not caring and why should you limit yourself, I know that already. But tyranny, destroying things for fun, knowing what absolute idiots others are...it's all...unsettlingly familiar. Even not wanting people to genuinely consider us genuinely divine...

Also, seriously, Supreme Ruler of All Reality? Be honest, at least one person had made a joke about measurement rulers when talking about you. On an unrelated note, my universe is actually incredible boring to try and conquer- so boring I got bored of it before even getting one planet, actually- so there's really no point visiting."

I thought it's supposed to be YL making an Opinion at the AN's Leader?
-OOC

/skip

OOC: It is. YN has religious laws from what I could see, and as far as I could tell, the leader himself is religious, though TBF, YL factbook didn't have a lot to go on. Yona is pretty rabidly anti-religious, while she's willing to attempt to make acceptations if the leader himself is atheist, that may or may not just be a ploy to seize control. As I didn't see anything in the factbook leading me to believe that YL is atheist though, this was the result.

TL;DR: Yona hates Charles Von Roland, thinks he is so beneath her as to not be worth mentioning by name, and believes the answer to these sour relations is to blow up all of Svenska-Britannia's planets while getting high.

How very pathetic. I have made a fortune by preying upon the weak-minded through selling them such products, and were I to sell to Earth, I am sure Bjornson would be slavishly begging me for more of my commodities. It appears that he has recently endeavored to spread his Skyhooker anarchy to new lands, drunkenly conquering and plundering foreign nations for little reason else than the energetic thrill which warfare provides to barbarians. Many decry my rule, yet where I establish order through obedience, Bjornson's anarchy creates only chaos. Freedom shall always be forfeited for order when the food or water supplies begin to dwindle, that I can assure you. And when those living under Bjornson's inept leadership shall inevitably begin to starve or thirst, they will turn to strongmen like me provide them with such basic resources. And do those citizens of the nations which the Reavers have subjugated truly believe they shall be competently ruled by the man who couldn't even manage a tiny lawless wasteland? I predict the freedom-loving Skyhookers shall soon have a rebellion on their hands, launched by those concerned more with bread than vague notions like liberty."

Judgement: Zen is engaging in Satanic Witchcraft
Punishment: The Usual (burnt at the stake)

"An irreligious and environmentalist animal humanoid. The amount of human-animal hybrids we have seen in this damned 'F7' concerns us and the wellbeing of fundamental morality. That doesn't matter however, as we are more disdained at his lack of a god and his support for rather undesirable policies like homosexual 'rights' and environmental protection. Both are utterly degenerate, but even worse is his mystical abilities. Magic and sorcery is pure witchcraft and clearly came from the pits of hell. Has scenic architecture, no light pollution, quiet streets and public executions for the smallest crimes.
