I was just saying cause, y'know maybe I would've liked to know which of those you were listening to?

You don't have to tell me tho.

I just edited it.

It's the one by Kanye West. This one:

But, you know what a good music video (and song) is? I Remember by the Game. You should check it out. It's on YouTube. Edit: Here's the link to I Remember - <http://www.youtube.com/watch?v=v24W85yYqYA>

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.
