Far Cry 3: Blood Dragon Soundtrack-Power Glove-Rex Colt

Cheesy 80's electronic music is only good when it is meant to be in one of the most terribly awesome video game DLC's of all time.

Mogwai-Remurdered

It's like Mogwai gone Electronica but it's so fantastic.

They've always had electronic aspects but that definitely has more then a lot of their stuff. I love the song, though. Definitely looking forward to their new album.

I know that soundtrack, it's amazing. And those parodies died at singing. I meant, I love this "retro wave" genre, basically artists that NewRetroWave spams. Mutlipac, Lazerhawk, Dynatron, Vector Hold, Power Glove etc etc.

The singing in that parody is pretty odd.

I love how there's a Shamizen in with all the cheesy 80's references.

Far Cry 3: Blood Dragon Soundtrack-Dr Elizabeth Darling

Have you ever actually played the game? I don't really know if you're a gamer.

I'm not really a gamer as in "always looking for new games, played [big number here] games" I stick with few. I play mostly when it's too cold/rainy or I'm too lazy to go outside and even then just some casual stuff. Blood Dragon is on my wishlist though.

I don't game as much as I used to but I definitely go crazy sometimes. Like when a new game I've been looking forward to (The Last of Us and I got interested in GTA V) comes out. I played those a lot.

The best part of Blood Dragon is you don't need Far Cry 3 to buy the DLC.

Pretty sure they did a good job with making it that way, because Blood Dragon seems like it is almost more successful then Far Cry 3
