Hi, welcome to hell.

I'm sorry, what!?

La Ferra Suprema Reigns Supreme over the vast lands of Stella Nera
A land where humanity is king, above god and devil alike. A blissful Utopia for Humanity, a horrible Dystopia for sentient robots.

Robots shouldn't have rights or citizenship;
Compromise on other non-human sapient entities is possible, with limitations, but not on these buckets of bolts. They should serve humanity and have absolutely no place in society other than as our servants. Think of the benefits of this. Plus, they would almost certainly overtake humanity if we gave them the chance, whether out of pure advanced abilities or malice, or worse, both. Think of humanity.

Yep, but this time against Chile, Bolivia, and Peru with civil infighting between the military and a broad coalition of the far-left, left, and right. It'll come bit by bit in my news.
