Monkey 511 was Vladimir Putin, and for some reason died of stomach problems.

Monkey 508 tried way too hard to make his brain comprehend how Monkey 509 died instead of just accepting the fact for what it is.

Monkey 506 was a member of the Senate that murdered 507, who was popular among the people. Eventually, as 506 and the rest of the Senate tried to frame 506's death as a good thing, the population connected the dots, and the members of the Senate didn't last long afterwards.

Monkey 503 got cancer and went to the Make A Wish Foundation. His wish was to go to the Bikini Bottom due to his love for the famous cartoon, Spongebob. He didn't realize it took place under the Bikini Atoll and was filled with radiation. The radiation accelerated the cancer cells and he very quickly died.

Monkey 502 went on a vacation to Gabon, and then a nuclear test secretly conducted by the French Government happened to go wrong, which exploded the area the poor monkey was in.

Monkey 493 was friends with Monkey 492 until he found out that 492 was actually a spy then paid the price with 492 shooting his roof into his kitchen when 493 was having breakfast.

Monkey 492 died because the bullet he shot at monkey 492 ricocheted off of the floor, which then ricocheted off the lamp outside of monkey 493s house, which then ricocheted off of a space station in space, which then directly pierced monkey 942s skull as the space station was above monkey 492.

Monkey 491 had to make sure that every monkey that was supposed to die had died, so he went back and killed any that had managed to survive by being skipped or ignored. He managed to go all the way to 10000 but realized he was out of food and water and didn't remember how to get back home, so he died shortly thereafter.
