In Slaughter Natives - *Dusk Of Hope*

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

Another reason I want to actually physically own music. There's so much music I want to try on Audiosurf but I only have it on Spotify.

*You'll be back* - Johnny Russell

Is it proper to have the song title first, or the artist? I've never really figured it out.

It's not at all musical, this meeting I'm listening to. On the other hand, I did get a Ten Years After greatest hits album the other day, I need to spend some time with that.

Make Earth Great Again: Stop Continental Drift!

And Jesus was a sailor when he walked upon the water ...

"Make yourself at home, Frank. Hit somebody." RIP Don Rickles

My country, right or wrong; if right, to be kept right; and if wrong, to be set right. ~ Carl Schurz

<Sigh> NSG...where even the atheists are Augustinians. ~ The Archregimancy

Now the foot is on the other hand ~ Kannap

RIP Dyakovo ... Ashmoria (Freedom ... or cake)

This is the eighth line. If your signature is longer, it's too long.
