Monkey 3999 accidentally jumped on an old tree branch which impaled it from bum to mouth, it took a week for it to die.

Monkey 3993 was the only student in his history class to get every question correct for the test on all the bad stuff that happened in 2020. The rest of the monkeys, furious at his nerdy nature, became a violent mob which killed him, then sacked Constantinople.

Don't use NS stats except for changes in economics, political freedoms, or civil rights which may eventually make their way into written canon if I get tired of worldbuilding.

Monkey 3392, predictably, was in Constantinople at the time.
