We can undiscover it by quickly changing the point and then smashing our heads against walls until we don't remember anymore. We may lose our cognitive abilities (if we even had any to begin with), but it will be worth the price.

Also anyone notice how NSG is capable of going multi personality disorder? They can be incredibly toxic and then unite and sing in unison on threads like the blessed Suez boat thread. Maybe it's just the fact that the toxic guys are always on the hot debate threads so more chill people end up in the Suez thread. A bit against the typical NSG cliché though, which is cool.

To be fair, if it's the case that Russian never really existed in-universe, then Benese could still work as calling something "Russian" in-universe would be the same as if we called Russian "Benese" in our own universe.

~~Though admittedly, creating this super-complicated alternate universe only to have the major language just be "Russian but with more exaggerated As" is kinda poopy.~~

One fun cliché is hating ripple on an image for no discernible reason.

Ripple is hit or miss but generally makes flags look pretty iffy in comparison to manually added effects that might actually serve to make the flag nicer. There's just more image editing tricks you can do if you don't use ripple, as ripple is basically dependant on a solid colour flag with no transparent effects.

Ripple sucks.

I will not elaborate.

THE PEOPLE * ETERNAL

" We will not bow to your dictation. We are free. We bled to be free. Who are you to tell us what we may and may not do? **We stopped being your slaves an era ago.** "

South Reinkalistan is a massive, ecologically-diverse nation notable for its roving student militias and widespread hatred for the elderly. In the midst of a room-temperature cultural revolution that's lost its momentum, the Party carefully plans its next move. As the brittle bones of fragile empires begin to crack beneath their own weight, history's symphony reaches crescendo pitch. The future is all but certain.

You're right, I won't deny it.
However I feel like we shouldn't chastise those who use it.

I think ripplebashing is just a meme that gets taken too seriously, but you're right, if you don't have access to GIMP or Photoshop or whatever you should be fine rolling with ripple if you want a stylised flag.

Yeah but those names are distinctly tied to those languages and are part of the language, it would be really weird for Russian to be called 'Benrian' as 'Ben' isn't a Russian region name like 'Rus/Russia, Ukraine (Borderland)/Malorossiya (little Russia), Belarus/Byelorossiya (White Russia), etc.

Anyways since it's Thursday that means it's time for the weekly cliché: People not knowing that the forum reindexes so they make a thread in Technical about their missing posts.
