Not a crime, but you'd be laughed at by everyone in the country. Democracy as an idea never caught on here.
Defacing of historical and patriotic statues

Factbooks and dispatches (which are works in progress) are the primary source of information for my nation. I try to have my stats match my idea of my nation but I think policies are the stat I can control the most.

I don't dislike anyone here. Agree or disagree, we're all compadres. :-)

It's complicated. If there is no merit in the attack, the person or next of kin can choose either to have the legal system handle it or pay an avenger of blood (assassin) to hunt attacker down. If there is merit the attacker and defender must make reconciliation according to the decision of the tribal chiefs.

If there was no merit and there is lasting harm done, then all property of attacker is confiscated and given to the victim or next of kin. The attacker is stripped of name and titles, and fed to the sharks. If there is no merit and no permanent harm the same happens but instead of being fed to the sharks attacker is permanently exiled. Should no nation take the attacker then attacker is fed to the sharks.

Feeding unwary people to sharks as a pretend tour guide?

Posting fake information about high-ranking government official which makes him look bad (for example accusing minister of finances of embezzling money when it's fake)
