Not really my thing, BUT they intrigue me. I looked them up and I saw they had 5 vocalists and 1 drummer. Interesting that all the bass and guitars is vocals.

So even though they don't really interest me (Not a power metal fan), they are definitely interesting with their approach.

We do not speak Arabic, are not in anyway related to Arabs, and are separate from Arabs in every way, both in real life and game-wise. Calling us Arabs would be the same as bringing under question our legitimacy.

[Burial - Loner](#)

Good music, but I wouldn't call it dubstep. More a mix of dark techno and drum & bass, if you ask me. Very atmospheric, I like that.

It's definitely dubstep. Although that track has that 4x4 beat so it's harder to tell. Amazing track though.

Much easier to hear there. Untrue's one of my favourite albums of all time.

I love the bassline on this one too.
