Mushnik and Son by Little Shop of Horrors.

This is a really listenable song. I think it's because it really further enforces that Mushnik is the 'Jewish old dude'.

we, unlike the bourgeoisie, have nothing to lose and therefore our expression will be the only honest one, our words will be the only challenging ones and our art will be the one revolutionary expression. We need new noise and new voices and new canvases to become something more than the last poets of a useless generation.

Mono seems to make good soundtrack music. I think they'd be great for doing a movie or game soundtrack.

I need to listen to more of them. I made a playlist for them ages ago, along with Epic 45. Don't know how much of either is actually good. The main song i know from 65daysofstatic is [Lyonesse](#), which I find to be pretty fantastic.

I like [Ashes In The Snow](#) and [Legend](#) the best of the ones I've truly payed attention to. The last one also works very well with the beautiful video.

And they may of, I don't really know.
