**We do not use NS Stats, policies, or otherwise. Please only judge us by what is in our factbooks.**

An alternate history version of China in which the alliance between the Kuomintang and the Communist Party never broke down, eventually resulting in a federalized, democratic China. Though one of the world's strongest economies and an emerging superpower, China continues to suffer from high rates of income inequality, an overreaching and sometimes corrupt government, and cultural issues that continue to persist despite the efforts of many reformers over the decades. Most factbooks are still an active WIP.

"If it isn't our dear Narcissus, the grand emperor of a nation which gives me a sore throat every time I try to pronounce its name!

Do you ever look at yourself in the mirror and wonder why you've gone so far with that twisted mind of yours, to fall so deep into the rabbit hole of wickedness and cruelty? You tell yourself that you need to be violent in order to live in this cruel world but it is people like you that make this universe harder to live in! You breed evil in this world by being the callous being that you are.

You care naught for the people that live under you. You only treat them like puzzle pieces! If one can't fit in your puzzle, you mold them until you do. You have no moral compass whatsoever and if you could change my mind, I would be pleasantly surprised.

Listen here, mutt. I know you're a bit thick upstairs and you're probably just as vain as I am to see the world in a different light but if I may ask, what happens if you're incapable of conquering any further? Will you finally start treating your citizens like individuals rather than pawns?

If you ask me, your dear empire is doomed to fail if it's not built on compassionate order. The kind of order that values each and every single individual in your homeland. The kind of order that inspires the people I serve to go out of their way to keep this homeland safe and free. We do this out of love, instead of fear and mindless devotion. Tell me, when you're pushed back into a corner with no way to escape, do you truly think your inner circle will be there to protect you?

Look, I might make my nation look like a kitten's den due to my character but the people I serve have hearts of gold and would terrify you if they ever took to the field against you. Hell, my uncle's an unhinged bastard that'll make you shit bricks if you ever cross paths with him.

In any case, if it wasn't so obvious, I despise you with every fiber of my being but I guess you'll take that as an endorsement. Of course you would, I'm your polar opposite in almost every way. However, I'm no weakling and if you ever have the guts to let me have my revenge for that thrall feed incident, I'll show you another side of me!" - Ambrosia

AN: "Ah, Ms Lifen, I admire the way you've dealt with the growing concern of climate change in your homeworld! While it's not much of an issue in my realm, it is most definitely due to the fact that all my people have grown to respect mother nature, avoiding to incur its wrath.

You have my thanks for treating the fauna and flora of your planet with proper respect. Moving on from that, you certainly don't wait for anyone to lead the way, Ms Lifen! I'm glad to see that you've taken the initiative to improve the world through wise investments and trade!

I see no reason to not consider you a role model. I hope you continue on this path, Ms Lifen!"

**Kabzeel**, meaning "God's Gathering" in hebrew, is a *federal, dominant-party, socialist(non-marxist)constitutional monarchy* with a rich Jewish heritage dating back to it's creation in 845 CE. Today, it spans almost the entirety of Eastern Europe and is the largest predominately Jewish and female-led state in the world as it follows the doctrine of "*Royal Socialism*", a paternalistic conservative ideology with an emphasis on socialization, social ownership, and conservative feminism. Its relationship with Israel is noticeably rocky, but this is due to the ongoing complications between Kabzeelian and Israeli Zionism.
