The land of the truly free, where money is tangible, and where liberty isn't a bloody cudgel used to justify forever wars or absurd crime rates.

- An unusual compact of gun-runners and agro-industrialists topples an incompetent emperor hellbent on so-called "collective punishment" against native peoples for daring to resist top-down "liberalization and rampant rent-seeking", hence paving the path for an anti-elitist confederation at peace with its local traditions and favoring domestic production whenever fiscally possible.
