Note that this nation does not represent my IRL political beliefs. Most of what I'm doing is just a worldbuilding exercise/way to have fun.

All NS stats and policies are applied. Exceptions to that rule include:

Othello

This place is not a place of honor... no highly esteemed deed is commemorated here... nothing valued is here. What is here was dangerous and repulsive to us. The danger is in a particular location... it increases towards a center... the center of danger is here... of a particular size and shape, and below us. The danger is still present, in your time, as it was in ours. The danger is to the body, and it can kill. The form of the danger is an emanation of energy. The danger is unleashed only if you substantially disturb this place physically. This place is best shunned and left uninhabited.
