It is a country originally founded by the Dutch in New Amsterdam (what would have been New York), which becomes its own country at the same time as the US. During the Cold War, it participates in overthrowing economically leftist leaders in South America and replacing them with right-wing ones. There is a WWII after the Cold War, after which it expands to the north and south.

The other members of the "Big Four" did not recognize the new state until 1949. I wonder if Israel also exists in this canon, given the Brits were planning on creating a Jewish State in the Levant since at least 1917.

Apart from its large presence in North America -which is its Metropole, one should think- the Imperium also maintains territories in the Atlantic Ocean, South America, Africa and (I'm assuming) Oceania. Within "America Septentrionalis", only Quebec and a rump Mexican State exist outside of the Imperium's Borders.

In 2024, the Columbian Free State (A country which occupies OTL Washington, Oregon and British Columbia), described as an 'authoritarian dictatorship', invaded NT, specifically so due to claims the former had in Alaska. The war ended in a colossal failure for the Free Columbians; their country was entirely dissolved and promptly annexed into NT, their territories reorganized into the provinces of Washington, Oregon, and British Columbia.

The current Emperor is alleged to have committed some human rights abuses during his reign, which given the track record of most monarchs with power in our timeline, is probably an accurate accusation.

We do not use NS Stats, policies, or otherwise. Please only judge us by what is in our factbooks.

An alternate history version of China in which the alliance between the Kuomintang and the Communist Party never broke down, eventually resulting in a federalized, democratic China. Though one of the world's strongest economies and an emerging superpower, China continues to suffer from high rates of income inequality, an overreaching and sometimes corrupt government, and cultural issues that continue to persist despite the efforts of many reformers over the decades. Most factbooks are still an active WIP.
