Brave New World.

Rapture City

- In the underwater city, two roles have emerged from the City's ongoing civil war: the **City Monitors** who defend the peace and the **Red Caps** who fight against unjust systems. The city's infrastructure is crumbling under its own weight and kinship is snuffed by the paranoia of totalitarianism. Yet the people would be in for a surprise as their virtual overlord have died many years ago as the oppression continues under his name...
- Not an 1-1 exact replica of **Bioshock** lore and **Rapture City**. Only the city's atmosphere and setting is maintained.

He's here to ask you a question. Is a man not entitled to the sweat of his brow? "No," said the man in Washington, "it belongs to the poor." "No," said the man in the Vatican, "it belongs to God." "No," said the man in Moscow, "it belongs to everyone." He rejected those answers; instead, He chose something different. He chose the impossible. He chose... Rapture. A city where the artist would not fear the censor; where the scientist would not be bound by petty morality; where the great would not be constrained by the small!

Hi, it's been a while. If you're seeing this then it means what I'm working on is not quite done yet. You can still read my old stuff but it's probably not canon anymore. I'll try to get something up soon. It may or may not involve wizards.
