There Nation is a Pan-Asiatic USSR that was formed after the aftermath of a nuclear war

Note: Many factbooks are in a constant state of WIP or being considered for entire rework or deletion

Welcome to The Alpes a Septentrionali Imperium, a nation where I brutalize and adapt Latin and French History to my needs to get my Ultraroyalist Absolutist French Monarchy with a vaguely French-sounding fictional royal family to work.

Don't ask about the flag, it has something to do with RMB RP that I'm involved with.

Well, they are based on the Warhammer 40K universe, and that they are on the fringes of the Imperium's territory and are in former Tau lands.

Just some sort of Creative Writing experiment, Not meant to be my political views.

NS Stats are used alongside factbooks.

Factbooks are often updated, most of them are eternally works in progress.

Their nation had to go underground because foreign corporations killed the soil and environment aboveground

A council communist federation that emerged from the ashes of a period of mass

Alexandra Xochitl, an American revolutionary figure, lived in a base called Fort
Zapata. Coincidentally, to honor her figure, the North American government
built their capital on and named it after Xochitl's base.

They follow Squidism, a religion which emerged around the 1400s. Their holy text is the "Book of Madai," which describes the life and teachings of their prophet, the Grand Squid.

AN: For the crap-tier response: They're the Roman Empire, recreated.

I give more detailed responses than most, exception not the rule.

Sometimes you win some, sometimes you lose some not always gonna get a response you like.

They have charity organizations that also happen to produce supersoldiers for the armed forces. Alrighty then.

The Thaum is a particle with magic-like properties that was announced (And presumably, note, i'm assuming that it was discovered by the Ministry of Science) by the Ministry of Science, Fedor Arshnievskiy. The Thaum has the unique quality to be able to react to Human brainwaves, essentially turning it

into a sort of magic particle. In the original broadcast, Arshnievskiy turned the partides into fire. However, the presentation itself was actually made to look more complicated through the use of fake technology to make it seem more impressive.

I honestly did not expect that, just assumed they were like, the entire US.

Color me surprised.

I really like all the effort they put into the ministries, well organized, very information and it looks pleasing to the eyes. Nothing surprising with what is there, all seems pretty standard, but how it is shown i what is interesting about them.
